APPLIED STATISTICS & RESEARCH METHODS

CERTIFICATE

— OF APPRECIATION —

Theo is a highly skilled and passionate instructor of Stat 150, Math 124, and Stat 101 in the Department of Mathematics. His remarkable academic accomplishments and leadership make him a true asset to both UNC and ASRM. Theo's dedication is further evident in his diverse internship experiences and research in areas like Bayesian methods, as well as his contributions to companies such as the FDA, all of which reflect his commitment to both advancing research and continuing his professional development.

Additionally, Theo has been a supportive teaching assistant during his PhD years, assisting professors with courses and research, and consistently demonstrating his enthusiasm for helping others succeed.
